

EUROPÄISCHE BILDUNGSSTÄTTE

für LEHMBAU

The European School of Earth Building

- has been initiated by FAL e.V.
FAL e.V. is a non profit organisation promoting regional development in the rural area near the Plauer See in the south of Mecklenburg-Vorpommern / Germany.
- has been originated in exchange projects of earth building specialists and educational experts from Bulgaria, France, Germany, Great Britain and Poland in co-operation with the European Leonardo Pilot Projects “**Clay Plaster**” and “**European Earth Builder**”.
- is regionally embedded in the natural and cultural landscape „**Lehm+Backsteinstraße**“ (Clay + Brick Route).
- offers opportunities for meeting and exchange for earth builders across Europe.
- promotes exchange and discussion amongst trainers and educational specialists in the Earth Building sector aiming to improve the quality of life long learning in Earth Building in Europe.
- provides training and recognised qualification “Designer for clay plastering” in collaboration with the Chamber of Crafts Schwerin.
- offers ECVET exams for the Earth Building sector
- provides vocational training: Introduction into Earth Building, Rammed Earth, Clay Oven, Masonary Heaters, Clay Plasters for Beginners, Coloured Clay Plasters and Interior Design, Tadelakt, Sgraffito, Marketing for Earth building companies and Straw bale building.
- organises special exhibitions and events in collaboration with the Clay Museum Gnevsdorf
- offers mobility exchanges for trainees in earth building with our European partner organisations
- co-operates with training institutions and vocational schools in earth building within the European vocational projects “**PIRATE**”, “**Northern Clayplaster**” and “**Natural Plasters and Finishes**”
